

DISCO MEDI

A tricycle for adults

With our DISCO MEDI tricycle, you remain self-reliant with the freedom to exercise and handle everyday tasks whenever you want.

We recommend DISCO MEDI for the walking-impaired and people with impaired balance as well as those unsure about getting on a regular bicycle - and for those who just want a different bicycle. The comfortable sofa seat close to the ground guarantees you a comfortable and safe tricycle ride, every time! Disco Medi is a smaller version of the larger Disco and is especially suited for people of a height of approx. 160/165 cm. The 16" tyres and the overall construction of the tricycles give you a very low centre of gravity and, thus, an absolutely safe tricycle ride.

DISCO is available in three sizes and is ideal for both children and adults. DISCO MEDI is the medium size in the series.

DISCO MEDI is also available with an electric motor and all models can be tailored to your specific needs.

The DISCO MEDI tricycle is especially known for its comfort, durability and formidable roadability:

- » Easy to get on and off and safe to drive
- » Comfortable seat that is easy to adjust forwards and backwards
- » Extremely strong construction and a long working life of more than 10 years
- » 7 gears with/without reverse function

Specifications

Dimensions

Length: 171 cm
